

COCKROACH IAS is not about an insect — it is about the human capacity to persist when the world expects you to quit. We are your companions.

THE SOVEREIGN MANIFESTO

For those who refused to Quit

We did not emerge from standard corporate design rooms. We emerged from intense study hours, quiet persistence, and the quiet dignity of student rooms where dreams are nurtured.

CHAPTER ONE

Born out of deep empathy, built on absolute honesty.

In recent years, nationwide discussions on civil service exam pressure highlighted the extreme environments and challenges aspirants navigate daily. The intense competition often pushes students to their limits, highlighting the need for real, empathetic ecosystems that protect student dignity and mental endurance.

We realized that competitive preparation demands far more than just study materials—it demands absolute mental support and a community that acts as a secure shoulder. We chose the name **Cockroachias** to honor the ultimate metaphor of survival, adaptability, and unbreakable resilience.

The cockroach represents the ultimate survivor in the natural world: **absolute endurance, unbeatable adaptability to any environment, and high physical resilience**. We empower students to cultivate these exact traits—turning pressure into structured, unbreakable focus to master the syllabus.

OUR ACTIVE MISSION

To replace impersonal, commercial formats with supportive, highly affordable, and honest companionship. We seek to protect your well-being and mental health while building pure conceptual mastery.

OUR GROUND-LEVEL VISION

To ensure every single officer entering the Indian bureaucracy has spent a chapter of their life learning ground-level survival. When an alumnus of Cockroachias becomes an administrator of a district, they will understand the exact weight of a poor citizen's struggle—for they spent their training years on the ground level.
